

CLUBOVKA AND KARIM RASHID

ARCHITECTS AND DESIGNERS THAT ARE CHANGING THE WORLD

8 October 2008, Theatre METEORIT

...somewhere at the beginning there was the idea of an empty space where many people, feelings, thoughts and ideas would fit...

CLUBOVKA, as an informal meeting of friends of architecture, originated from the necessity to meet, exchange and gain new opinions, knowledge, information, to lead club discussions on architecture and design. CLUBOVKA is a ground which is freed from "ISMs" and expert critique. It is above all about people, their work, dreams, opinions, about their motivation, about what is not visible at first sight, about a thought...

The purpose of CLUBOVKA is to present important creators of contemporary world architecture and design – people living their rich life in an absolute and permanent creative storm, desire and passion...

CLUBOVKA started in 2002 and the success of every year, its program, level and the response of the participants represented by firms, architects, friends of architecture and design inspired the organization of the following

years. CLUBOVKA was awarded in 2007 the prize of Prof. MARTIN KUSÝ for a systematic and successful edifying and popularizing activity in the field of architecture, and for the activity of its founder Tatiana Kollárová. During six years CLUBOVKA became a cult evening about architecture, design and other culture at the Slovak scene with a response from abroad as well. It is also confirmed by more than 50 of these events with the participation of celebrities.

Karim Rashid

Karim Rashid is a prominent figure in the field of products of interior design, fashion, furniture, lamps and art. He was born in Cairo, he has Egyptian and English roots, he grew up in Canada and at present he works in New York. He designs for grandiose groups of clients from Alessi for Georg Jensen, Umbra for Prada, Miyake for Method.

Karim radically changes the aesthetics of product design and the real naturalism of consumer culture. Karim received in 2006 a honorary doctorate from the Ontario College of Art and Design. His other awards are the following: Honorary Doctorate from Corcoran College, 2005 Pratt Legends Award, 2004 A.D. Dunton Alumni Award of Distinction from his alma mater, 2002 ID Magazine Annual Design Review Best of Category, and 2003 best Retail Store in USA.

His works are represented in the collections of 14 world museums including MoMA and SFMoMA and he still holds exhibitions of art in different galleries. For 10 years already Karim has been a special professor of industrial design and a regular guest who has lectures at universities and conferences.

LIFESTYLE

In 2008 CLUBOVKA brings a new, an especially unique project, ARCHITECTS AND DESIGNERS THAT ARE CHANGING THE WORLD. The sponsor of the project is the charismatic designer KARIM RASHID who will present to us, during the whole year 2008, his favourite architects and designers who are some of the key figures in the field of architecture and design in the world... In 2008 CLUBOVKA will therefore become an overview of architecture and design through the work of these prominent architects and designers who will be presented during club evenings in Bratislava and Prague. CLUBOVKA will therefore continue in the tradition of pleasant club evenings for all those who have their profession and their lifestyle connected with architecture and design. With no less importance it is also a challenge for our sleeping beauty on DANUBE. Let's wake up BRATISLAVA from the imprisonment of mediocre and small-town architecture which has been constraining it for whole decades and let's make it one of the European big cities.

On 8th October at 4 pm CLUBOVKA will start in the theatre METEORIT with a lecture of the charismatic Karim Rashid. The lecture will be held in the spirit of an overview of his production and works, which are represented in the collections of 14 world museums. At the same time he will be presented as the sponsor of CLUBOVKA 2008/2009 "MY FAVOURITE ARCHITECTS AND DESIGNERS THAT ARE CHANGING THE WORLD..."

The project ARCHITECTS AND DESIGNERS WHO ARE CHANGING THE WORLD in 2008 will present:
